The Digital Millennium Copyright Act covers both circumvention of copy protection as well as unauthorized copying of copyrighted materials.. It's fine to 'rip' a CD to itunes and use it but may not be ok to do the same for a DVD (depending on where you live/local laws etc).. It has the vast inputs & outputs, fastest speed and strong protection removal capability.. Even if you live outside of US the forums are hosted by Apple in the US so we have to abide by their rules or potentially have posts deleted.. Courts in the U S Have ruled consistently that the application of the fair use concept is very narrow and in every case where it has been applied in legal disputes over the copying of DVDs, the media companies have won.. The essential difference is that the DVD is encrypted, and in the US circumventing this would fall foul of the DMCA act, even if you own the DVD and it's for personal fair use. 0041d406d9 [Asix Ax88772 Driver Free Download](#)
